

ABSTRACT OF THE DISCLOSURE

5 Process for the preparation of smoked products such as
fish, meat, pork products and the like comprises at least
one step of flavoring which gives a smoked flavor to the
food product and at least one step of coloring, independent
from the flavoring step, which gives a supplemental color
or a particular supplemental nuance to the food product, in
10 particular by reinforcing the color previously obtained.
The invention also relates to an apparatus for the practice
of the process and the smoked food products thus obtained.
